ADJOURNMENT
MINUTES
ST. TAMMANY PARISH BOARD OF ADJUSTMENTS MEETING
3:00 PM - TUESDAY, SEPTEMBER 2, 2014
LA HIGHWAY 59/KOOP DRIVE ADMINISTRATIVE COMPLEX BUILDING
MANDEVILLE, LOUISIANA

The September 2, 2014 meeting of the St. Tammany Parish Board of Adjustments was called to order by the Chairman, Mr. Tim Fandal.

The roll was called as follows:

PRESENT: Mr. Fandal, Mr. Brookter, Mr. Schneider, Mr. Gordon and Mr. Perry

ABSENT: Mr. Ballantine

STAFF PRESENT: Mr. Keller

APPROVAL OF THE MINUTES

Moved by Mr. Brookter and seconded by Mr. Schneider to accept the August 5, 2014 minutes as typed and delivered.

MOTION CARRIED UNANIMOUSLY

BOA CASE NO. 14-09-028
Request by applicant for variances for the reduction of some perimeter landscaping and planting buffer requirements in a HC-2 Highway Commercial zoning district
Applicant: Pelican Pointe Carwash

(Mr. Keller informed the board that the applicant had requested that their case be postponed until the next meeting in order for them to revise their site plan.

Moved by Mr. Perry and seconded by Mr. Schneider to postpone this case until next month.

MOTION CARRIED UNANIMOUSLY

BOA CASE NO. 14-09-029
Request by applicant for a variance of a side yard landscaping and planting buffer requirement in an I-2 Industrial zoning district from 10' required to approximately 8' requested.
Applicant: I FOR Properties, L.L.C./Blanchard & Sons, L.L.C.

(Mr. Keller read the staff report into the record...)

Mr. Paul Mayronne with Jones Fussell, L.P. law firm, P.O. Box 1810, Covington, LA appeared
on behalf of the applicant and made the following initial comments:

- This is an industrial park on LA Highway 59.
- The existing building is on lot 26 and is a high-end warehouse.
- Lot 15 is vacant.
- Inadvertent errors were made on this project.
- The parish issued a permit for the building even though it did not meet parish setbacks.
- This was due to the transition at the time when the parish switched from Zoning Ordinance No. 523 to the Unified Development Code.
- We want to extend building onto lot 15 and keep the line of the building consistent.
- A 2' jog would be very costly.
- We have a letter of no objection from the adjacent lot owner stating that they don’t have a problem with the setback issue.

Mr. Fandal: Will lot 14 be affected, or will you incorporate this lot into the project?

Mr. Mayronne: Yes, we will be using the lot for the project.

Moved by Mr. Gorden and seconded by Mr. Schneider to grant the variance as requested.

MOTION CARRIED UNANIMOUSLY

BOA CASE NO. 14-09-030
Request by applicant for a variance of a north street side landscaping and planting buffer requirement in a HC-3 Highway Commercial zoning district from 20' required to approximately 15' requested.
Applicant: Frank Nuccio

(Mr. Keller read the staff report into the record...)

Mr. Matt Organ, 329 Debouchel Place, Mandeville, LA, appeared on behalf of the applicant and made the following initial comments:

- We understand the concerns.
- This site will be for a “Smoothie King” and they usually require a 24' wide width for driveways.
- We have provided additional green space on the rear of the property.

Mr. Gordon: You also show where you added additional green space on the front.

Mr. Organ: Yes, and we could get away with an 18' setback. As you know, that site is currently a blemish to the area.
Mr. Gordon: You may want to request that the board consider a revision to your application from 15' requested to 18'.

Mr. Organ: Yes, I agree to that revision.

Moved by Mr. Gordon and seconded by Mr. Brookter to grant the variance request for the north side landscape planting buffer from 20' required to 18' requested per revised application request and meet all landscaping planting requirements.

MOTION CARRIED UNANIMOUSLY

ST. TAMMANY PARISH BOARD OF ADJUSTMENT  
STAFF ANALYSIS REPORT

Case File Number: BOA Case No. 14-09-028  
Initial Hearing Date: September 2, 2014  
Date of Report: September 12, 2014

GENERAL INFORMATION

Applicant(s) Name: Pelican Pointe Carwash  
Location of Property: 203 Florida Street, Mandeville, Louisiana  
Zoning of Property: HC-2 Highway Commercial  
Variance(s) Requested: Landscape and planting buffers

OVERVIEW

The applicant is asking for variances of landscape and planting buffers in order to fit a carwash on the property in question. The applicant is claiming a hardship (see narrative attached) due to the fact that some of his property has been expropriated by the State for right-of-way purposes on both sides of his frontages (U.S. Highway 190 & LA Highway 59).

This case was postponed at the request of the applicant at last month’s meeting so that they could have some additional time to see if they could make some adjustments to their site plan in order to become more compliant with parish code.

STAFF COMMENTS

Although a portion of the property has been expropriated by the State, the fact remains that the property, being .69 acres in size, is still large enough to support several other types of businesses, or a reduced size version of the carwash on this commercial property.

Pursuant to the postponement of the applicant’s case from last month’s meeting, he has made a minor change to the north landscape buffer request from 3' originally requested to 4' presently, and appears to have provided most of the 20' wide landscape buffer required on the south side of the property from their original request of 11' 4".

However, even with the marginal improvements made to the site plan as opposed to the original one, the staff still feels that the variance requests outstanding and relief requested from the planting of several trees on the site, does not go far enough. Therefore, the applicant should
consider either seeking alternative properties that can adequately support a carwash business of this size, or try to reduce the imprint of the project in order to comply as close as possible to parish code.

In the event that the board decides to grant relief for some or all of the variances requested, the applicant should be required to pay for plant mitigation to the St. Tammany Parish Tree Mitigation Bank for the number of trees that would normally be planted within the deficient buffers (9 Class A and 5 Class B) in the amount of $3,000.00, for which payment is based on $100.00 per caliper inch of tree, which is inclusive of the cost for the trees and the labor required to plant.

Example: Applicant is requesting a variance for a front yard setback requirement from 25' required by the parish, to approximately 20' requested.

(See Narrative Attached)

SIGNATURE OF APPLICANT

DATE OF APPLICATION

8/4/14
Members of the Board,

Applicant is requesting the following variances for the project on the corner of HWY 59 and Florida St.

1. To reduce a portion of greenspace at the rear of property from 10' required, to 4' requested.
2. To reduce the west side greenspace from 10' required, to 6' requested.
3. To reduce the number of Class B trees from 7 required, to 4 in the planting along Florida St.
4. To reduce the number of Class A trees from 9 required to 0, and Class B trees from 9 required, to 7 in rear greenspace, applicant will provide evergreen shrubs along rear of building.

Applicants are willing to donate to the tree bank for any additional trees that may not fit into the greenspaces.

Thank you for your time and consideration of these requests.

Sincerely,

Ronald Bonner
August 4, 2014

Members of the Board,

The following hardship is due to the states widening of the roadways of Gerard Street and Florida Street. As a result of the widening; this parcel of land lost approximately 20’ in depth on the (south) Florida Street side, approximately 21’ in width on the Gerard Street side and the square corner is now on an angle.

In an effort to meet all parish criteria, applicants have looked at many options for this project with the minimum effect on the corner of Gerard Street and Florida Street. Applicants have used the minimum size building; driveways and parking spaces allowed and have incorporated 2266 sq. ft. of green space on the interior, and an additional 5446 sq. ft. of green space in the right of way. Applicants are in need of the following three variances:

1. Applicant is requesting a variance for a (north) rear building set back requirement from 10’ required by the parish, to approximately 3’ requested.

   Applicant’s request to move the building back is to accommodate the necessary parking spaces, driveways and turning radii. As a concession to the request, applicant has increased green space at the rear of the building, east towards Gerard Street; in an effort to beautify that corner, which is the most visible to the public. Behind the building, there is an existing driveway that leads from Gerard Street to McDonalds and an unmaintained ditch full of overgrown weeds, which will be landscaped, sodded, and meticulously maintained.

2. Applicant is requesting a variance for a (west) side landscape buffer requirement of 10’ required by the parish, to approximately 6’ requested.

   Applicant’s request for a 6’ landscape buffer on the west side adjacent to McDonalds is to meet the minimum required turning radius and driveway existing the building. Request is also in an effort to minimize the impact on the (east) Gerard Street side, and maintain that 20’ setback on the more visible side to the public. The applicant has also increased the more visible 20’ setback to 20’ 11”.

3. Applicant is requesting a variance for a (south) front landscape buffer requirement of 20’ required by the parish, to approximately 11’ 4” requested.

   Applicant’s request for the front 11’ 4” landscape buffer on the south side is to meet the minimum requirements for necessary parking spaces, driveways, turning radii and interior green spaces. As a concession to this request, applicant is removing 3 existing driveways and replacing them with new landscape and sod which will increase the total square footage of green space and have a more substantial beautification impact on the entire corner.
Applicants are willing to donate to the tree bank for any additional trees that may not fit into the green spaces.

Applicants would also like to thank you for your time and consideration to the three mentioned requests.

Sincerely,

Pelican Pointe Carwash

ST. TAMMANY PARISH BOARD OF ADJUSTMENT
STAFF ANALYSIS REPORT

Case File Number: BOA Case No. 14-10-031
Initial Hearing Date: October 7, 2014
Date of Report: September 15, 2014

GENERAL INFORMATION

Applicant(s) Name: Lawrence Parr, III
Location of Property: 26540 Mandane Drive, Lacombe, Louisiana
Zoning of Property: Residential
Variance(s) Requested: Exceeding maximum size of a boat shed

OVERVIEW

The applicant is requesting “after the fact” variances for the width, depth and size of a boathouse from 20’, 40’ and 800 square feet required to 30’, 56’ and 1732 square feet respectively. The applicant states in his narrative (see attached) that he built the structure without obtaining a permit because he did not know he needed a permit to replace and existing structure.

STAFF COMMENTS

As the board is aware, the parish council is currently considering amending the parish’s Unified Development Code (UDC) to allow the maximum size of a boathouse to be 1600’ square feet, without regard to the width or depth of said structure. And even though the applicant’s boathouse exceeds even the maximum proposed size for a boathouse, the staff suggests that the board consider postponing hearing this case pending the outcome of the proposed legislation. Then the board can consider the merits of the applicant’s request. Otherwise, at this point, given the current state of the law, the staff would recommend denial of the proposed variances requested due to the fact the applicant’s hardship is self-imposed.

From: Elizabeth C. Parr

Re: Construction of building

I am the owner of 26550 Mandane Dr. in Lacombe. I live next door to Lawrence Parr III. I also own the house at 26511 Mildred Dr. which is across the bayou from his house. I have no objection to the building that he has constructed.

Elizabeth C. Parr
My reason for requesting a variance:

When I began construction on my boat shed I was under the impression that if I was replacing an existing structure that no permit was needed. Apparently that is not the case.

My old boat shed, efficiency apartment (used for storage), garage and porch was under one roof and had been standing for 35 years. The walls were rotten, parts of the roof had fallen in, and it was infested with termites. It had to be torn down, and that is what I did. I replaced it with a structure that is much safer and has the same footprint as the old building. It is no larger than what I had. In fact it is 16 feet smaller. I could understand the square footage problem if no structure previously existed. But I don’t understand why I cannot have a structure that is the same size as the one that stood on my property for so many years.
ST. TAMMANY PARISH BOARD OF ADJUSTMENT
STAFF ANALYSIS REPORT

Case File Number: BOA Case No. 14-10-032
Initial Hearing Date: October 7, 2014
Date of Report: September 15, 2014

GENERAL INFORMATION

Applicant(s) Name: Rita S. Westmoreland
Location of Property: 57389 Oak Avenue, Slidell, Louisiana
Zoning of Property: A-4 Single Family Residential
Variance(s) Requested: Front and/or rear setbacks

OVERVIEW

The applicant is requesting a variance or variances to place a 16'x76' mobile home on a lot in Beverly Hills subdivision. The applicant wants to give the board options as to what it may favor in terms of setbacks either to the front yard and/or rear yard setbacks.

STAFF COMMENTS

Obviously, the mobile home that the applicant wants to place on the property is too large for the size of the lot (50'x110'), and it's our understanding that the mobile home has already been purchased.

This subdivision is a “mixed” area with “stick built” and mobile homes. The applicant claims that there are several homes in the subdivision that violate the parish setback requirements and have included some pictures her application as evidence (see attached). However, upon inspection of the area by the staff, we were unable to qualify with certainty if said statement by the applicant is accurate.

If the board decides to grant a variance or variances for the front and/or rear yard setbacks, the staff recommends that the board consider granting a variance exclusively to the rear yard and maintain the minimum required front yard setback of 25', thereby leaving a 9' rear yard setback.
BOA CASE NO. [redacted] (for office use only)

ST. TAMMANY PARISH BOARD OF ADJUSTMENT
(VARIANCE/APPEAL APPLICATION FORM)

(Please print on the following lines below. If a company, please include a contact person name also.)

APPLICANTS NAME: Rita S. Westmoreland

MAILING ADDRESS: 57385 Oak Avenue

CITY/STATE/ZIP: Slidell, Louisiana 70460

PHONE NUMBER: 985-290-2345

(Please state on the following lines below your specific request for a variance/appeal:

Example: Applicant is requesting a variance for a front yard setback requirement from 25' required by
the parish, to approximately 20' requested.

Applicant is requesting a variance to either front or back
yard setback from 25' in front and 15' in back to 20' in front and
15' in back. Or a variance of 12' in back to 9' in back. Have
already purchased new mobile home.

Rita S. Westmoreland 1/24/2014

SIGNATURE OF APPLICANT DATE OF APPLICATION
I'm writing this request in response to a denial for property permit requested my property purchased on Oak Avenue in Slidell, Louisiana. I went before the Board in May of this year to request a variance so that I could place a mobile home on this property. My request was approved by the Board for both properties (4 lots). I was not told at that time that there was a limitation of the size of the mobile home. I was offered a really great deal on the purchase of a mobile home that measures 16 x 76 feet, so I bought it. I have been preparing this home as well as the property to get it moved. There is no money-back guarantee on this mobile home; it was sold to me “as-is”.

When we applied for the building permit, we were told at that time that we could not have less than 22 feet from the back of the mobile home to the property line; also that I have to have 25 feet from the front of the mobile home to the street. This causes a severe hardship for me. As stated, I have already purchased a 76-foot mobile home. The lot is only 110 feet deep; that only leaves 34 feet for front and back boundaries.

Therefore, I am requesting variances as follows:

- A variance for a front yard setback from 25 feet required by the parish, to 20 feet requested by the applicant.
- A variance for the back yard from 22 feet required by the parish, to 14 feet requested by the applicant.

If this is not agreeable, could we leave the 25 feet in the front yard, and get a variance for 9 feet in the back.

I have attached photos of other properties in the area that have less than the now required setbacks. I would greatly appreciate any consideration you can give to this request. I have already retired from my job and planned to move to St. Tammany Parish. That is why I purchased this property. The purchase of this land and the mobile home has depleted my savings to the point that I cannot afford to move anywhere else. When I came before the Board previously, I submitted everything I was asked for, which included a plot plan and a survey of the property. Had there been any other stipulations, I feel that I should have been informed at our previous meeting. Since there were no other requirements mentioned, I proceeded with the purchase of the mobile home, and I felt that I had provided everything that was required of me. I need a place to live in as soon as possible since I am temporarily residing elsewhere. I also have to move the mobile home I have purchased very soon, and this is the only place I have to move it to. Thank you so much for a timely response.

Sincerely,

[Signature]
Rita S. Westmoreland

RE: Rita S. Westmoreland  
57385 Oak Avenue  
Slidell, Louisiana 70460  

Request for variance on property located at  
57389 Oak Avenue  
Lots 45 and 46 Beverly Hills Subdivision  
Slidell, Louisiana 70460  

Please be it known that I, [Name], residing at the following address  
57385 Oak Ave, Slidell, LA, which is adjacent to subject property, have no issues with the owner's request for a variance. Ms. Westmoreland has explained to me that she has already received permission from the Board to place a mobile home on the subject property and that she is requesting one of the following options:

- A front yard reduction from 25 feet to 20 feet and a back yard reduction from 22 feet to 14 feet.
- A back yard reduction from 22 feet to 9 feet.

This variance is being requested in order to accommodate a mobile home that she has already purchased. I do not believe either of these options would adversely affect my property.

Sincerely,

[Signature]

STAFF ANALYSIS REPORT

Case File Number: BOA Case No. 14-10-033
Initial Hearing Date: October 7, 2014
Date of Report: September 15, 2014

GENERAL INFORMATION

Applicant(s) Name: Affordable Homes & Land, L.L.C.
Location of Property: 1003 Foy Street, Mandeville, Louisiana
Zoning of Property: A4-A Single Family Residential
Variance(s) Requested: Side yard (corner) setback

OVERVIEW

The applicant is requesting a variance for a corner side yard setback stating that they were unaware of the required 20' foot setback on a corner lot.

STAFF COMMENTS

The size of the home proposed for this site is approximately 2695 square feet which could fit on a lot of this size if the applicant were to propose an alternative design where the home would be a little longer as opposed to wider. The staff believes that this request represents a personal preference as opposed to a hardship; therefore, the applicant can and should provide alternative designs in order to comply with parish code.
