EXISTING LAND USE:
Existing development? No
Multi occupancy development? Yes

COMPREHENSIVE PLAN:

Residential Infill – New residential uses developed on undeveloped tracts within existing residential districts that are compatible with, or improve upon, those existing uses. Such uses may be allowed a greater density of use, in exchange for public benefits that would be provided

Conservation - Areas designated for uses of land, water, flora and fauna that appear naturally. Such uses may include such activities as extraction or production for commerce; human enjoyment, hunting, fishing, or other recreation within natural landscapes; or preservation of natural systems.

The concept of “conservation” includes a private landowner’s understanding of responsibility to wisely manage that resource so that it remains in good condition for future generations (often simple referred to as “good stewardship”); this concept may also include the conservation of energy through efficient transportation options as well as through climate responsive building design, as well as the conservation of historic, scenic, or otherwise serviceable buildings and landscapes. Means to achieve conservation are myriad and include both private and public sector initiatives – such means will be considered in subsequent phases of the New Directions 2025 planning process.

STAFF COMMENTS:
The petitioner is requesting to change the zoning from I-4 (Heavy Industrial District) to A-4 (Single Family Residential District). The site is located on the east side of US Highway 11, south of Robert Road, north of Hass Road. The 2025 future land use plan calls for the area to be developed with residential uses including conservation areas. Staff does not have any objections to the request.

STAFF RECOMMENDATION:
The staff recommends that the request for an A-4 (Single Family Residential District) designation be approved.

Residential/Agricultural - Agricultural and related or other active or passive uses that use or preserve the countryside, forests and other areas and rural residential uses - widely ranging in dwelling size or type, siting and organization; both of which are generally located some distance from more intense land uses. Permitted uses include single-family residential, and uses ancillary to either of these primary uses. Other uses require a change in zoning.

STAFF COMMENTS:
The petitioner is requesting to change the zoning from A-1 (Suburban District) to A-2 (Suburban District). The site is located on the south side of Pine Acres Road, east of LA Highway 437. EXISTING LAND USE:
Existing development? Yes Multi occupancy development? Yes

COMPREHENSIVE PLAN:
Residential/ Agricultural - Agricultural and related or other active or passive uses that use or preserve the countryside, forests and other areas and rural residential uses – widely ranging in dwelling size or type, siting and organization; both of which are generally located some distance from more intense land uses. Permitted uses include single-family residential, and uses ancillary to either of these primary uses. Other uses require a change in zoning.

STAFF COMMENTS:
The petitioner is requesting to change the zoning from A-1 (Suburban District) to A-2 (Suburban District). The site is located on the south side of LA Highway 1078, east of Donnie Road. The 2025 future land use plan calls for the area to be developed with residential and agricultural uses. Staff feels that there is no compelling reason to recommend approval, considering that the site is surrounded by residential/agricultural uses and undeveloped parcels of land zoned A-1 (Suburban District).

STAFF RECOMMENDATION:
The staff recommends that the request for an A-2 (Suburban District) designation be denied.

EXISTING LAND USE:
Existing development? No
Multi occupancy development? No

COMPREHENSIVE PLAN:
Industrial - The processing, packaging, delivery or production of goods or services, allowed at various types of and levels of activity. Such activities may include governmental, research, archival or medical.

STAFF COMMENTS:
The petitioner is requesting to change the zoning from NC-6 (Public, Cultural and Recreational District) to HC-2 (Highway Commercial District). The site is located on the west side of LA Highway 59, south of Parker Drive, north of Casril Drive. The 2025 future land use plan calls for the site to be developed with industrial uses. Staff does not see any compelling reason to recommend approval of the request, considering that the site is directly abutting single family residential uses on the south and west sides.

Note that a zoning change request was submitted in 2012 to rezoned the site to HC-2 Highway Commercial District (ZC12-01-007). The request was denied by the Zoning Commission and appealed to the Council. The Council granted approval to reclassify the zoning of the site to NC-6 (Public, Cultural and Recreational District).

STAFF RECOMMENDATION:
The staff recommends that the request for a HC-2 (Highway Commercial District) designation be denied.

EXISTING LAND USE:
Existing development? No
Multi occupancy development? No

COMPREHENSIVE PLAN:
Residential - Areas that provide for dwelling units. Such areas may vary in site design, structure design, and in the density of units per acre. Certain areas such as “village or town residential” may include mixed uses and would have the highest number of units per acre, while “Rural residential” would have the lowest number of units per acre, and may include agricultural or open space uses as well. In between these two types of residential areas would be varying levels of single-family detached dwellings, multi-family attached residential, and planned subdivisions for manufactured homes.

STAFF COMMENTS:
The petitioner is requesting to change the zoning from A-3 (Suburban District) to A-3 (Suburban District) & MHO (Manufactured Housing Overlay). The site is located on the north side of Preachers Oak Road, east of Carroll Road, being lots 42, 43, 44, Square 5, Avondale Subdivision. The 2025 future land use plan calls for the area to be developed with residential uses including manufactured homes. Staff does not have any objections to the request.

STAFF RECOMMENDATION:
The staff recommends that the request for a MHO (Manufactured Housing Overlay) designation be approved.
