EXISTING LAND USE:
Existing development? No
Multi occupancy development? No

COMPREHENSIVE PLAN:
Residential - Areas that provide for dwelling units. Such areas may vary in site design, structure design, and in the density of units per acre. Certain areas such as "village or town residential" may include mixed uses and would have the highest number of units per acre, while "Rural residential" would have the lowest number of units per acre, and may include agricultural or open space uses as well. In between these two types of residential areas would be varying levels of single-family detached dwellings, multi-family attached residential, and planned subdivisions for manufactured homes.

STAFF COMMENTS:
The petitioner is requesting to change the zoning from A-4 (Single-Family Residential District) to A-4 (Single-Family Residential District) & MHO (Manufactured Housing Overlay). The site is located on the west side of Oak Avenue, south of Sycamore Avenue, being lots 43, 44, 45 & 46, Square 6, Beverly Hills Subdivision. The 2025 future land use plan calls for the area to be developed with residential uses including manufactured homes. Staff has no objections to the request considering that the area is developed with a mix of stick built homes and manufactured homes.

STAFF RECOMMENDATION:
The staff recommends that the request for a MHO (Manufactured Housing Overlay) designation be approved.

GENERAL INFORMATION

PETITIONER: Daniel & Diane Hof
OWNER: Daniel & Diane Hof
REQUESTED CHANGE: From HC-1 (Highway Commercial District) to HC-2 (Highway Commercial District)
LOCATION: Parcel located on the south side of LA Highway 22, west of Trapagnier Road, across from Belle Pointe Drive, being 1519 LA Highway 22 West, Madisonville; S16, T75, R10E; Ward 1, District 4
SIZE: 3.98 acres

STAFF COMMENTS:
The petitioner is requesting to change the zoning from HC-1 (Highway Commercial District) to HC-2 (Highway Commercial District). The site is located on the south side of LA Highway 22, west of Trapagnier Road, across from Belle Pointe Drive. The 2025 future land use plan designates the site to be developed as a planned district with single family residential uses and conservation area. The site is currently developed with strip shopping center and a retail store. Staff feels that there is no compelling reason to recommend approval of the request, considering that the site is surrounded by HC-1 zoning, on the north, east and west sides.

Note that the property was zoned C-2 Highway Commercial District before the comprehensive rezoning.

STAFF RECOMMENDATION:
The staff recommends that the request for a HC-2 (Highway Commercial District) designation be denied.

Meeting Date: May 6, 2014
Determination: Approved

LAND USE CONSIDERATIONS
SURROUNDING LAND USE AND ZONING:
Direction | Land Use | Zoning
--- | --- | ---
North | Undeveloped | HC-1 (Highway Commercial District)
South | Undeveloped | A-2 (Suburban District)
East | Residential | HC-1 (Highway Commercial District)
West | Undeveloped | HC-1 (Highway Commercial District)

EXISTING LAND USE:
Existing development? Yes
Multi occupancy development? Yes

COMPREHENSIVE PLAN:
Planned Districts - Coordinated development on several parcels, usually at a higher density – but not in all cases - than other parcels in the proximity, planned in an integrated fashion as single units including residential, commercial and possibly other (institutional, recreational, e.g.) uses, as well as the supporting infrastructure and public services they will require (See "Small Area Plans," below). Generally, such developments improve environmental qualities, preserve natural environments, provide for open space and recreational uses, and for residential as well as commercial uses, and are equipped with central utility systems and efficient and effective internal and external transportation access in multiple modes.

Single Family Residential – Conservation - These planned districts would include clustered single family residential uses, at a density – within the overall tract – which is similar to that of adjoining residential uses, and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure. Such individual Planned Residential – Conservation developments should aim to achieve contiguity among adjoining conservation areas in adjacent developments.

STAFF COMMENTS:
The petitioner is requesting to change the zoning from HC-1 (Highway Commercial District) to HC-2 (Highway Commercial District). The site is located on the south side of LA Highway 22, west of Trapagnier Road, across from Belle Pointe Drive. The 2025 future land use plan designates the site to be developed as a planned district with single family residential uses and conservation area. The site is currently developed with strip shopping center and a retail store. Staff feels that there is no compelling reason to recommend approval of the request, considering that the site is surrounded by HC-1 zoning, on the north, east and west sides.

Note that the property was zoned C-2 Highway Commercial District before the comprehensive rezoning.

STAFF RECOMMENDATION:
The staff recommends that the request for a HC-2 (Highway Commercial District) designation be denied.

EXISTING LAND USE:
Existing development? No  Multi occupancy development? Yes

COMPREHENSIVE PLAN:

Residential - Areas that provide for dwelling units. Such areas may vary in site design, structure design, and in the density of units per acre. Certain areas such as “village or town residential” may include mixed uses and would have the highest number of units per acre, while “Rural residential” would have the lowest number of units per acre, and may include agricultural or open space uses as well. In between these two types of residential areas would be varying levels of single-family detached dwellings, multi-family attached residential, and planned subdivisions for manufactured homes.

STAFF COMMENTS:
The petitioner is requesting to change the zoning from A-4 (Single-Family Residential District) to A-4A (Single-Family Residential District). The site is located on the northeast corner of Orleans Street & Foy Street, being a portion of Square 140, Town of Mandeville. The 2025 Future Land Use Plan calls for the area to be developed with residential uses. The site is abutting HC-2 on the south side of Orleans street and single family residences developed 50' wide lots on east side of the site. However, the north and west sides of the site, along Foy Street, are developed with single family residences on lot of 90' wide or larger. Staff is not completely opposed to the request, but remain concerned by the fact that A-4A would allow the creation of 4 lots.

STAFF RECOMMENDATION:
The staff recommends that the request for an A-4A (Single-Family Residential District) designation be denied.
CASE NO.: ZC14-05-036

EXISTING LAND USE:
Existing development? Yes
Multi occupancy development? No

COMPREHENSIVE PLAN:
Residential/Agricultural - Agricultural and related or other active or passive uses that use or preserve the countryside, forests and other areas and rural residential uses – widely ranging in dwelling size or type, siting and organization; both of which are generally located some distance from more intense land uses. Permitted uses include single-family residential, and uses ancillary to either of these primary uses. Other uses require a change in zoning.

STAFF COMMENTS:
The petitioner is requesting to change the zoning from A-1 (Suburban District) to A-1A (Suburban District). The site is located at southwest corner of Section Road & King Road. The 2025 Future Land Use Plan calls for the area to be developed with residential and agricultural uses. Staff sees no compelling reason to increase the density in the area considering that all abutting parcels are zoned A-1 Suburban District.

STAFF RECOMMENDATION:
The staff recommends that the request for an A-1A (Suburban District) designation be denied.

EXISTING LAND USE:
Existing development? No
Multi occupancy development? No

COMPREHENSIVE PLAN:

Planned Districts - Coordinated development on several parcels, usually at a higher density - but not in all cases - than other parcels in the proximity, planned in an integrated fashion as single units including residential, commercial and possibly other (institutional, recreational, e.g.) uses, as well as the supporting infrastructure and public services they will require (See "Small Area Plans," below). Generally, such developments improve environmental qualities, preserve natural environments, provide for open space and recreational uses, and for residential as well as commercial uses, and are equipped with central utility systems and efficient and effective internal and external transportation access in multiple modes.

Single Family Residential - Conservation - These planned districts would include clustered single family residential uses, at a density - within the overall tract - which is similar to that of adjoining residential uses, and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure. Such individual Planned Residential - Conservation developments should aim to achieve contiguity among adjoining conservation areas in adjacent developments.

STAFF COMMENTS:
The petitioner is requesting to change the zoning from NC-4 (Neighborhood Institutional District) to ED-2 (Higher Education District). The site is located at the southeast corner of LA Highway 21 & Christwood Blvd. The 2025 Future Land Use Plan calls for the area to be developed as a Planned District with residential uses including conservation areas. The zoning change is being requested to allow for an expansion of the Christ Episcopal School. Staff does not have any objections to the request.

Note that a Conditional Use Permit (CP08-09-162) was previously granted for an expansion of the Christ Episcopal School Campus on the same site.

STAFF RECOMMENDATION:
The staff recommends that the request for an ED-2 (Higher Education District) designation be approved.

EXISTING LAND USE:
Existing development? No
Multi occupancy development? No

COMPREHENSIVE PLAN:

Planned Districts - Coordinated development on several parcels, usually at a higher density – but not in all cases - than other parcels in the proximity, planned in an integrated fashion as single units including residential, commercial and possibly other (institutional, recreational, e.g.) uses, as well as the supporting infrastructure and public services they will require (See “Small Area Plans,” below). Generally, such developments improve environmental qualities, preserve natural environments, provide for open space and recreational uses, and for residential as well as commercial uses, and are equipped with central utility systems and efficient and effective internal and external transportation access in multiple modes.

Single Family Residential – Conservation - These planned districts would include clustered single family residential uses, at a density – within the overall tract – which is similar to that of adjoining residential uses, and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure. Such individual Planned Residential – Conservation developments should aim to achieve contiguity among adjoining conservation areas in adjacent developments.

STAFF COMMENTS:
The petitioner is requesting to change the zoning from A-4 (Single-Family Residential District) to PF-1 (Public Facilities District). The site is located on the northwest corner of Meadows Blvd & Airport Road, being lot 22 & part of lot 21, Home Acres Subdivision. The 2025 future land use plan calls for the area to be developed as a planned district with residential uses and conservation areas. Considering that the site is surrounded by residential uses, staff has no objection to the request, considering that the permitted uses listed under PF-1 would allow for public and institutional uses to serve the area. Note that the site is proposed to be developed with a Fire Station.

STAFF RECOMMENDATION:
The staff recommends that the request for a PF-1 (Public Facilities District) designation be approved.
CASE NO.: ZC14-05-042
PETITIONER: Troy G. Ingram/St. Tammany Fire Protection District No. 1
OWNER: Martin A. Smith, Jr.

EXISTING LAND USE:
Existing development? Yes
Multi occupancy development? Yes

COMPREHENSIVE PLAN:

Mixed Use – Commercial – Conservation - These planned districts would include mixed uses, except for residential uses, – at varying densities - and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure.

STAFF COMMENTS:
The petitioner is requesting to change the zoning from HC-3 (Highway Commercial District) & PBC-1 (Planned Business Center) to PBC-1 (Planned Business Center). The site is located on the north side of Northpark Blvd, west of Lake Drive, east of Park Place. The 2025 future land use plan calls for the area to be developed as a planned district with commercial uses at varying density including conservation areas. A portion of the site is currently developed as the Chevron Office Complex. The zoning change to PBC-1 will allow expansion the office and supporting uses in a campus type setting. Staff has no objection to the request.

STAFF RECOMMENDATION:
The staff recommends that the request for an PBC-1 (Planned Business Center) designation be approved.

EXISTING LAND USE:
Existing development? Yes
Multi occupancy development? No

COMPREHENSIVE PLAN:
Commercial Infill – New commercial uses developed on undeveloped tracts within existing commercial districts that are compatible with, or improve upon, those existing uses. Such uses may be allowed a greater density of use, in exchange for public benefits that would be provided.

STAFF COMMENTS:
The petitioner is requesting to change the zoning from HC-3 (Highway Commercial District) to I-i (Industrial District). The site is located on the northwest corner of US Highway 11 & Frickie Road, south of Johnny F. Smith Blvd, being a portion of Lot 48-A-1, Johnny F. Smith Memorial Business Park. The 2025 Future Land Use Plan designates the area as Commercial Infill, which suggests that the area be developed with new commercial uses, compatible with the surrounding area. Considering that the site is surrounded by HC-3 zoning, staff does not see a compelling reason to recommend approval.

Note that a portion of the property, which abuts Hwy 11 and Frickie Road, has previously been used as an auto repair business/used car lot

STAFF RECOMMENDATION:
The staff recommends that the request for an I-i (Industrial District) designation be denied.

Existing development? Yes  Multi occupancy development? No

STAFF COMMENTS:
Petitioner is proposing a New Office Warehouse & Addition to Existing Office Warehouse on the south side of US Highway 190 West, west of Thompson Road, east of Sylve Road, being 2371 US Highway 190 West, Slidell. At this point insufficient information has been provided to meet the parking and landscape requirements of the St. Tammany Parish ordinance.

Note: Petitioner is also requesting a variance from the facade requirement in the PCO which requires brick, stucco or wood to be used on the rear of the building. The applicant would like to use vinyl siding instead.

STAFF RECOMMENDATIONS:
The staff recommends that this proposal be postponed until all applicable regulations and the following conditions are met:

1. Provide a landscape plan showing the size and location of all existing trees to be preserved and any new plant materials to meet the applicable landscaping requirements. Provide the size, caliper and species of the proposed trees on the revised landscape plan. Note that the size of the Class A & Class B trees has to be a minimum of 10' to 12' high. The caliper of Class A trees has to be a minimum of 2⅛" and the caliper of Class B trees has to be a minimum of 1½" measured at 1½ feet above the ground.
2. Note, special ‘no clear’ buffer restrictions in 25’ Tammany Trace buffer on landscape plan.
3. Provide site plan with sufficient parking to meet the minimum number and size required by ordinance and, provide 1 Class A tree in an appropriately sized parking island at the end of each row of parking and at least every 12 spaces.
4. Access ways through the periphery of an off street parking or other vehicular use area shall be a minimum of 24' to a maximum of 35' wide for 2 way traffic; and a minimum of 12' to 15' wide for one way traffic.
5. If a dumpster is required, provide the location and the required screening.
6. The property owner shall be responsible for the maintenance and the replacement of the required plant materials.
7. During construction, planting or open ground areas surrounding preserved trees shall be wired off with a properly flagged, reinforced & rolled wire mesh.
8. Sight triangle shall have 25 feet at the intersection of a public street and 15 feet along a private access way. No parking, wall, fence, sign, structure or plant material shall be placed within the sight distance area so as not to impede vision between a height of 2½ feet and 10 feet above the center line grades of the intersecting streets and/or drives.
9. No plant material except grass or ground cover shall be located closer than 3 feet from the edge of any access way pavement.
10. Provide an exterior lighting plan so all exterior lighting shall be shaded or inwardly directed in such a manner so that no direct lighting or glare is cast beyond the property line. The intensity of such lighting shall not exceed one foot candle as measured at the abutting property line. Outdoor lighting illumination shall follow the recommended guidelines for the luminescence as established in the IESNA Lighting Handbook.

NOTE TO PETITIONER
There is a 10 day appeals period following the Zoning Commission decision. If the request is approved, permits will not be issued until this 10 day period has elapsed. The petitioner shall have one year to obtain the appropriate building permits or occupy the site from the date of approval of the St. Tammany Parish Zoning Commission, unless otherwise stipulated by the St. Tammany Parish Zoning Commission.
